**We must also point out that the principle of peaceful co-existence does not imply a mockery of the will of the peoples ...**

**"Excerpt of speech delivered before the U.N. Gen. Assembly on Dec. 11, 1964."**

"... We must also point out that the principle of peaceful co-existence does not imply a mockery of the will of the peoples, as is happening in the case of so called British Guiana, where the Government of Premier Cheddi Jagan has been the victim of every kind of pressure and manoeuvre, while the achievement of Independence has been delayed by the search for methods that would allow for the flouting of the will of the people while ensuring the docility of a Government different from the present one, put in by underhand tactics and then to grant an important "freedom" to this piece of American soil.

**What ever the roads Guiana may be compelled to follow to obtain Independence, the moral and militant support of CUBA goes to its People."**

Our every action is a battle cry  
against imperialism, and a battle  
hymn for the people's unity against  
the great enemy of mankind: the  
United States of America. Wherever  
death may surprise us, let it be wel-  
come, provided that this, our battle  
cry, may have reached some recep-  
tive ear and another hand may be  
extended to wield our weapons and  
other men be ready to intone the fu-

ing of the machineguns and new  
battle cries of war and victory.
